DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/01/2009 has been entered.

Response to Amendment/Arguments

Applicant's arguments along with the amendments filed 06/01/2009 have been fully considered with the following Office Action results.

Claim Objections

Claims 10-16 and 19-21 are objected to because of the following informalities: Claim 16 contains capitalization of letters is misused (for example, claim 16, line 2, "A gating" should be changed to --a gating--), and these capitalizations should be changed to lower case in a manner similar to that shown in the example. Claims 11-16 and 19-21 also contain similar capitalization informalities which should be corrected. Appropriate correction is required.

Double Patenting

Applicant is advised that should claim 11 be found allowable, claim 18 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
